PRESIDENT'S MESSAGE

Dear Members:

With the heat of summer and our bellies full of Thanksgiving feast behind us I hope everyone enjoyed some down time to spend time with family and friends.

Since our AGM we have had a few changes to the board of directors and appointments. I am pleased to announce.

Steve De Iellis has stepped into the Secretary position and David Thompson has returned to Regional Director, southwest.

Frank Rao has stepped into the International Delegate position and Shawna Boakes has returned as Alternate International Delegate.

Rob Declair has had a busy past few months organizing the fall on-line schools in November, registration closes November 5th so please take a look at our website to register. Utilities Kingston hosted a IMSA mini trade show on October 21st. We had 10 vendors participate and a number of members for a great day of learning sessions, some laughs and a fantastic lunch.

Looking forward to our 2026 annual school as well as the trade show and expo is being planned for March in Burlington so please keep an eye for more information on this.

I hope everyone has an opportunity to enjoy the fall colors during this unusually warm fall.

Sincerely
GARY WIMMER

PRESIDENT GARY WIMMER

IMSA Ontario Trillium Section

UPCOMING EVENTS

Fall 2025 On-Line Schools

November 18 & 19 - Online Roadway Lighting Technician I class

November 25 & 26 - Online Traffic Signal Technician I class

December 2 & 3 - Online Traffic Signal Field Technician II class

Registration for all programs will open October 1st and will close on November 5th. For level I programs the prerequisite is a work zone program and one (1) year of experience. For level II programs two (2) years' experience and a Level I Certificate are the prerequisites. To register, send your requests to certifications@imsasafetyon.org.

EAST REGION MINI TRADE SHOW & TECHNICAL SESSIONS

On Tuesday, October 21st, 2025, the East Region hosted a mini trade show combined with technical sessions at Utilities Kingston, located in Kingston. This event brought together industry professionals and vendors for a day of learning, networking, and showcasing innovative products.

The trade show featured a wide range of vendors, including: **Econolite Canada; Electromega; Fortran; GGI Road and Traffic; ITS; Sentinel Pole and Traffic Equipment; Tacel Ltd.; Traffic Hardware and Design and Velociti Innovations.** Each vendor contributed to the vibrant atmosphere of the event, engaging participants and sharing their expertise.

Throughout the day, attendees had the opportunity to participate in four product presentations. Each session lasted 30 minutes and gave vendors the platform to present their latest innovations and technical solutions.

ECONOLITE CANADA

ELECTROMEGA

The event drew thirty-four registered participants from a variety of organizations, ensuring a diverse audience and broad representation. Attendees came from: **City of Belleville; City of Kingston; Utilities Kingston; Quinte West; Ministry of Transportation Ontario (MTO); IMSA Ontario Trillium Section; ACF Electric and Industrial Electrical Contractors Brockville Ltd.**

The IMSA Ontario Trillium Section extends sincere thanks to everyone who participated, delivered product presentations and contributed to the success and informativeness of the day. A special thank you goes out to all the vendors for their generosity in providing door prizes which added to the welcoming spirit of the event.

DIRECTORS SPOTLIGHT

MATT WOOD

Regional Director, East – IMSA Ontario Trillium Section

Hello there! My name is Matt Wood and I am pleased to represent the IMSA Ontario Trillium Section as the Director for the East Region.

My full-time job is a project manager in transportation services at the City of Kingston where I help manage and implement transportation technology, infrastructure, and safety projects across the City. I have been with the City of Kingston for 7 years and previously worked in the Department of Strategy, Innovation and Partnerships before moving over to Transportation 6 years ago.

I became involved with the IMSA Ontario Trillium Section in the past couple of years. I am relatively new to the Board and have the position as Director of the East Region since 2025. In this role as Director for the East Region I am tasked with attending Board Meetings, contributing to the governance and running of the organization along with bringing important issues and items of importance to the table to represent members in our Area. IMSA Ontario Trillium Section provides in person and online certification courses for its members for professional development. We also offer the opportunity for members to attend Expos as well as providing support for its members employed in and around the traffic industry. For those members in the East area, please reach out to me via email or telephone should you have any questions or suggestions to better YOUR membership in the organization. We are open to bettering YOUR membership and look forward to hearing from you! The front pages of our quarterly magazine lists the Regional Directors representing you!

The IMSA organization provides its members a volunteer opportunity to get involved in the field in which you are interested and perhaps employed. Get involved, you won't be disappointed!!

SHEILA MAYE

Regional Director, GTA 1 – IMSA Ontario Trillium Section

Senior Account Manager, Ontario & Western Canada – Electromega Ltd.

Hello, I'm Sheila Maye, and I'm proud to represent the GTA 1 region for the IMSA Ontario Trillium Section.

I've been with Electromega Ltd. for almost 14 years, where I serve as Senior Account Manager for Ontario and Western Canada. My work focuses on helping municipalities strengthen and modernize their traffic and transportation infrastructure. I currently oversee projects with the City of Hamilton and City of Mississauga, where we're deploying TS2 Type 1 traffic signal control cabinets and other advanced technologies to improve safety, efficiency, and connectivity on our roads.

I joined IMSA in 2013, drawn by the organization's strong focus on education, professional development, and collaboration across the industry. Over the years, I've seen firsthand how IMSA brings people together — from field technicians to engineers and suppliers — all working toward safer and smarter transportation systems.

Now, as Regional Director for GTA 1, I'm excited to give back by supporting our members, representing local interests at the board level, and helping shape opportunities for learning and growth. The IMSA Ontario Trillium Section offers outstanding training, certification, and networking experiences — and I encourage anyone in our field to get involved.

For those in the GTA 1 region, please don't hesitate to reach out. I'd love to hear your thoughts, feedback, or ideas on how we can continue improving the member experience and strengthening our professional community.
